

Solutions by Garaventa Lift

Model: Elvoron CPL

Project Name: Presbyterian Church

Location: Southern California

Installation Date: 2012

Description:

In this case, a church wanted a cost-effective accessibility solution. They wanted a fully automatic passenger elevator, but found that the Elvoron CPL met their accessibility needs at a fraction of the cost.

Here, the photos show New Age Oak laminate cab walls and brushed stainless steel fixtures. The hoistway entrance doors are equipped with power door operators which are controlled by the lift.
