

Solutions by Garaventa Lift

Model: Xpress II

Project: Bakerview Eco Dairy

Location: Abbotsford, B.C.

Installation Date: 2011

Description:

This facility is an educational center which has regular tour groups visit from local schools and universities.

In order to provide access to the mezzanine, a Garaventa Xpress II inclined platform lift was included in the plans.

This lift is mounted directly to the stair treads using towers.

It is shown in the standard colors for a 2011 Xpress II. The ramps, rails and towers are champagne anodized aluminum. The under-platform sensing plate and barrier arms are satin grey.
