

# Solutions by Garaventa Lift

**Model:** Genesis Shaftway

**Project:** St. Peter's Catholic Church

**Location:** New Westminster, B.C.

**Installation Date:** 2007

## **Description:**

This installation features a Genesis Shaftway vertical platform lift. The lift has a large size platform and a 90 degree on/off configuration.

Platform access is guarded by steel fire doors with safety glass vision panels. The doors carry a 1-1/2 hour fire rating. These are used where local building code requires the shaftway to be fire rated.
