

Solutions by Garaventa Lift

Model: Home Elevator

Project Name: Hobart Residence

Location: Tasmania, Australia

Installation Date: 2011

Description:

Raised panel oak hardwood walls and ceiling add a warm, traditional look. The hoistway is protected by a locking device installed on the door and door jamb controlled by the elevator, to ensure that the doors remain locked unless the cab is at the desired landing.

This elevator features a separate cabinet under the control panel for a telephone. A phone can also be integrated into the control panel.
